JUN 18 1975

SUBJECT: CSC 1976 Legislative Program

FROM: Bernard Rosen *BR*
Executive Director

TO: Personnel Directors

A topic of increasing interest to Federal personnel managers is the legislation introduced and passed in the Congress affecting personnel management policies. Earlier this year, we established the IAG Legislative Advisory Committee to improve information and communication about legislative activities among the members of the IAG.

As another step in improving our communication on this important subject, we are asking you to review the list (enclosed) of tentative legislative items under consideration for the 1976 CSC Legislative Program. This list is a selection of the major items under consideration. It does not include proposals that are highly technical or proposals that would not be of interest to the personnel community in general. Please give us your ranking of priority, your comments and add any additional items that you believe are important but are not listed. We realize you may not be fully acquainted with all of the circumstances that give rise to these proposals, but we welcome any recommendations or comments you care to make.

We are planning to make some final selections for the program in July and would appreciate having your comments on hand by June 30. If you have any questions, please call Miss Gale Dugan, 632-6898, for assistance.

Thank you for taking time to give us your views.
